

# Norwood Foundation gives Gift to ALKB

The Norwood Foundation, Inc., is a private, family foundation that was established in 2012. It proudly supports exciting and innovative initiatives that improve the K-12 learning process for students and educators. It accepts funding proposals from community organizations that provide youth related enrichment activities.

The Foundation's Director, Ferrin Kilby, who lives in Chiloquin, Oregon, confirms the Foundation primarily focuses on improving the K-12 learning process through innovative, replicable, and evidence-based strategies that prepare our youth to thrive in their studies, careers, and adult lives. In addition, the Foundation funds other initiatives that enrich the educational, spiritual and/or social welfare needs of children.

*Thank You to Ferrin Kilby  
and the Norwood Foundation*
